

SYN-100: INSTRUCTIONS FOR USE

Rx Only

INDICATIONS FOR USE:

- SYN-100 is a sterile solution containing Sodium Hyaluronate (10mg/ml).
- Sterile Post-surgical lavage solution to replace synovial fluid lost during surgery.
- Helps normalize the joint after arthrotomy.
- For use on cats, dogs and horses.

DIRECTIONS FOR USE:

- Install the medical device as the final lavage prior to surgical closure of the joint space.
- Volume to be determined by veterinary surgeon.
- Discard any unused portion of vial contents.

WARNING:

- Not for food animal use.
- Keep out of reach of children.
- For veterinary use only.

STORAGE:

- Store in a cool, dry place.
- Do not freeze
